

A wireframe of a dashboard interface. At the top is a navigation bar with five items: Home, Profile, Messages, and Settings. Below the navigation bar is a large section titled "Dashboard". Inside this section, there are three main columns: "Overview" (containing three rounded rectangles), "Recent Activity" (containing four horizontal bars), and "Quick Links" (containing three horizontal bars). The overall layout is clean and organized.

A mockup of a dashboard interface. At the top is a navigation bar with six items: Home, Profile, Messages, Summaries, Help, and Settings. The "Home" item is highlighted with a blue background. Below the navigation bar is a large section titled "Dashboard". Inside this section, there are three main columns: "Overview" (containing two cards for "Users" and "Posts"), "Recent Activity" (containing four horizontal bars), and "Analytics" (containing a card for "Analytics" showing "+22%"). The "Analytics" card includes a small chart icon. The overall design is modern and user-friendly.

A detailed view of a profile page for a user named 'John Doe'. The top navigation bar shows the current location as 'Profile'. The main content area starts with a header 'John Doe'. Below the header, there is a 'Summaries' section containing several small, illegible thumbnail images. To the right of the summaries is a contact information section with an email input field ('john.doe@example.com') and a name input field ('John Doe'). Further down, there are icons for email, phone, location, and a date ('Joined January 2023'). A 'Change Photo' button is located at the bottom of the summaries section. On the left side, there is a 'About' section with a text input field containing a descriptive paragraph about the user's experience with React, Node.js, and TypeScript. On the right side, there is a 'Details' section with a 'Phone' input field containing the number '+1 (555) 123-4567' and a 'Website' input field.

A screenshot of a mobile application's settings screen. At the top, there is a navigation bar with five items: Home, Profile, Messages, Settings, and a search icon. Below the navigation bar is a large title **Settings**. Underneath the title is a horizontal row of five tabs: **Account**, **Privacy**, **Notifications**, **Appearance**, and a partially visible tab starting with **S**. The **Account** tab is currently selected. Below the tabs, there are three main sections: **Account Settings**, **Privacy Settings**, and **Notification Settings**, each represented by a button with a horizontal slider underneath it.

A screenshot of a desktop application's settings screen. At the top, there is a navigation bar with six items: Home, Profile, Messages, Summaries, Help, and Settings. The **Settings** item is highlighted with a blue background. Below the navigation bar is a large title **Settings**. Underneath the title is a horizontal row of five tabs: **Account**, **Privacy**, **Notifications**, **Appearance**, and **Security**. The **Account** tab is currently selected. Below the tabs, there are two main sections: **Email Notifications** (with a toggle switch set to **On**) and **Profile Visibility** (with a dropdown menu set to **Everyone**). There is also a large, empty rectangular area at the bottom of the settings screen.
